o congress is a reminder that the legs do not know the man. slators have not taken full advantage of their opportunities in what he deems of vital public concern. Coupedgment of commendable action by the congress on some of his former recommendations.

The message at the same time disloses a smaller difference between the way employes have, if anything, inpresident and the congress on the legislative program than the opponents of the administration would have the appointed, preliminary to a special session by the new congress to revise the tariff, accords with the sentiment of congress and will doubtless be complied with. The president urges an emergency currency measure, as a temporary precaution against financial flurries until a reorganization of the system may be provided for in accord with a plan to be reported by a currency commission. While prospects are not encouraging for legislation not further reductions would be warproviding for an emergency currency, congress will probably comply with the suggestion for a currency commission to study the question and report to its after thorough investigation of all pernext session. While some house leaders have opposed the establishment of the railway employes should be given postal savings banks, the senate committee on finance has favorably reported a bill looking to that end which is likely to become law. The child labor law demanded for the District of Columbia is a local proposition that may be adopted or deferred without particular effect upon the country at large.

President Roosevelt admits that no consensus of opinion has been reached about two of the measures previously and again recommended. One aims to curtail the abuse of the power of inlunction and the other to amend the anti-trust law so as to give larger control by the national government over corporations in interstate commerce. While the president presents atrong arguments to support his position, congress seems disposed to take more time than is possible at the present session for more deliberate consideration of these problems.

Altogether, the president's legislative program has been quite liberally accepted by congress and when adjournment comes next month still further progress will surely have been made, so that the republicans can again go before the country with a record of achievement against which but little just complaint can be made.

MR. BRYAN AND THE EAST. Much of that part of the United States east of the Alleghenies formerly

designated by Mr. Bryan as "the enemy's country," is, according to all redemocrats in New York and New Eng- native politicians are now indulging reasons will do. A Montana minister who was sued land still cherish the hallucination threatens future insurred for \$16,000 had to pay \$8,000. The that Mr. Bryan may be induced to jury must have allowed the customary withdraw at the Denver convention if he is shown that his nomination would mean simply another democratic defeat and that the party might, under of the battleships is necessary, Uncle some other candidate, be reorganized Sam might dig up one of his old claims and strengthened. The Washington correspondent of the Boston Transcript, in the course of a long discus-An automobile collided with a team sion of the anti-Bryan sentiment in in the repair shop. Score for the than Mr. Bryan at Denver, quotes a succeeded in holding expenses down to "leading democratic United States senator" as follows:

Within the last few days I am persuaded to believe it is possible to force Bryan to abdicate. No man who has been taken up by the democrats of the east can be nominated. If the program that has been arranged goes through Johnson will "fall outside the breastworks," a martyr to the cause. He will have made it possible for the party to rid itself of Bryan as a presisia's next outlay should be for the pur- dential candidate. The eastern democrats peace in Cuba. Those most familiar expect Bryan to name the man. They have reason to believe they know the name of the man he will pick if he does have to get democrats of the east. Indeed, Mr. Bryan Cuban factions will submit to rule by could hardly pick a candidate that would not be satisfactory to the so-called anti-Bryan people. They are willing to accept anybody but Bryan. If Bryan should b compelled to get out of the way and should name the candidate, and the man picked Reports from Caracas state that should be elected, Governor Johnson and President Castro of Venezuela is seri. Judge Gray would go into the cabinet. So

After quoting other eastern democrats it is further explained that the program of the anti-Bryan men will be about the Police commission, appointed by to have a heart-to-heart talk with the a solltary office-holder, the governor, who Nebraska leader and convince him that the hope of the party for the coming campaign and for the future depends upon his self-erasure. The plan has

UNREST IN CUBA. While the elections in Cuba will not be held until next February, convincing evidence is accumulating that the Cuban patriots are preparing already to do business on the old plan as soon as the American army of occupation shall have been withdrawn. As a preliminary to the withdrawal of American troops, Governor Magoon has apof the Cuban army and has announced native forces. The rural guard, numbering some 6,000 men, is to form the nucleus of the force, which may be of the old rural guard, Major General Guerra's promotion and the natives are rapidly dividing into factions with the ansettling prospect that they will be at each other's throats at the earliest favorable moment.

Trouble has already broken out in Cardenas, where the poll list, which the mayor has entrusted to government employes to publish, has been seized by one of the political factions to prevent its publication. In other provinces and districts the factions are with difficulty kept from engaging in open conflict for every advantage that may be used in the election pregrowing business interests of the

satisfactory. The annual taxes amount ing heavier than in any country in the world, with the possible exception of Italy. This is due in part to the extravagance that marked the Palma ada minimum, but it is generally feared in Cuba that as soon as the affairs are restored to native hands the old system of extravagance, graft and loot will be re-established, with the factions

ready to fight for the plunder. In brief, it appears that Governor Magoon is disposed to believe armed force necessary to preserve domestic with the situation contend that if an armed 'orce is necessary it must be cut. This man will be satisfactory to the an American force, as neither of the the other.

THE POLICE BOARD QUESTION.

OMAHA, April II. To the Editor of The Bee: I read with much interest your editorial on "The Park Board Question" and fully agree with you you see they would get their reward after that the butting in of judges elected by the votes of four counties is an indefensible interference of the right of the community to manage its own interests. If this conclusion is correct, and I believe it is, what was elected by the whole state and who is absolutely unidentified personally with our city and its affairs. Is that defensible? JOHN ROSICKY.

The position of The Bee on "The The battle line on the battleships in even gone so far that the easterners Police Board Question" is well known the senate shows most of the votes in have about agreed that they will allow and has not changed. The Bee was favor of additional battleships for Mr. Bryan, after they have induced the active factor in the winning fight didate to be named. BURNING MONEY.

War a Huge Snap for Powder and Ball Makers. Metropolitan Magazine. In the future we shall slay one another at incredible distances. An enormous cannon has just been placed on the coast of Havre, which, with one well-directed shell, can sink, at a distance of twenty kilometers, the most formidable armored cruiser. The Germans, on their part, have installed in the port of Willemshoefen, a Krupp cannon which cost the trifling sum of \$79,000. every shot of which costs \$1,650, \$827 for the projectile, \$185 for the charge which expels the shell and \$838 for the checking apparatus. This gun cannot fire more than illnety-five shots before it is completely iseless. Because of the repeated action of the explosives, erosions are made in the bore, which destroy the quality of the steel, and the piece can no longer be used without danger of bursting. If we consider that after the deflagration of the charge the projectile remains in the gun only about the fiftieth part of a second, we can see that a cannon rendered useless after ninetyfive shots has not yielded more than two seconds of active service!-\$79,000 for two seconds; that gives the makers of the gun a wage of \$2,370,000 a minute; \$82,200,000 an our. Here lies the wealth of the steel and

CORPORATIONS NEED WATCHING.

Warning Against Monapolies of Western Water Power, Wall Street Journal.

The public is disposed to forget altogether too quickly the warnings which their representatives in office gave out from time to time against private or corporate enerouchments on public rights and properties. Less than sixty days ago the president of the United States in his waterways message sounded a note of alarm against being made by certain corporations to alienate public lands in state and federal jurisdictions wherever there was any desirable water power to control. President Roosevell then said;

"Among these monopolies, as the report of the commission points out, there is no other which threatens, or has ever threatened, such intolerable interference with the daily life of the people as the consolidation of companies controlling water power. I call your special attention to the attempt of the power corporations, through bills introduced at the present session, to escape from the possibility of governmental regulation in the interests of the people.

Here is a case in which publicity would serve as a sure preventive of efforts to filch from the public not only its property. but its right of control over such properties under federal law which it is proposed to enact through methods that will not bear the light of day. The constituents of representatives in congress can head off any of these projects by letting their repsentatives know that they are holding them responsible for the defeat of these attempts to get property and privileges from the public on terms that ignore the rights of
